EXPERIENCE

GENRAOR (Feb 2024 - Sep 2024):

- Collaborated with design and development teams to create user-friendly and responsive interfaces for web applications using HTML, CSS, JavaScript, React.js, and Next.js.
- Developed high-quality, reusable code to implement new features and maintain existing ones across multiple client websites, including Genroar, YallaDoThis, and Sonos.
- Worked closely with project stakeholders to translate business requirements into technical solutions, ensuring a seamless user experience.
- Utilized Tailwind CSS and Material UI to design and customize interactive elements and layouts for cross-browser compatibility.
- Conducted regular code reviews and optimization to improve website performance and maintainability.
- Managed version control and collaborated on code using Git and GitHub.

PROJECT SUMMARIES

- **YallaDoThis Website:** YallaDoThis is a productivity platform enabling users to efficiently manage tasks through features like to-do lists, reminders, and prioritization. Its user-friendly interface makes it easy for individuals and teams to organize personal and professional tasks, enhancing focus and productivity.
- **Genroar Website:** Genroar is a digital agency that offers a range of web development and design services. The agency specializes in creating customized solutions for clients in various industries, providing services such as website development, e-commerce solutions, mobile app development, and digital marketing. Genroar utilizes modern technologies to deliver high-quality results tailored to business needs.
- **Al Fahd Store Website:** Al Fahd Store is an e-commerce platform offering a variety of products, from clothing to electronics, catering to diverse customer needs. With a clean, modern design, it allows easy browsing, secure checkout, and highlights special deals, providing a smooth shopping experience. The site includes fast shipping, responsive customer support, and regular discounts, making it a reliable choice for online shopping.
